

# MultiPortal Technology RoadMap 2025

	Attributes	Description	Quarter 2			Quarter 3			Quarter 4			Upcoming
			Apr	May	Jun	Jul	Aug	Sep	Oct	Nov	Dec	
Integrations	WHMCS, MultiPortal API	Integration module enabling billing and automation tasks from WHMCS within MultiPortal		WMHCS Module								
	IP Address Management, automation	Enables IP management workflows from within MultiPortal with external IPAM systems						IPAM Integration				
	Kubernetes, cluster management	Allows control and orchestration of Kubernetes clusters from within MultiPortal									Kubernetes Integration	
Infrastructure Management	VLAN tagging, network awareness	Enables VLAN recognition within MultiPortal for improved network segmentation and visibility		Vlan Aware								
	Virtualisation, vDC, data mobility	Facilitates seamless VM transfers across Virtual Data Centres in MultiPortal					VM Migration between vDCs					
	Policy-based automation, lease expiry	Automates VM lifecycle expiry and cleanup based on preset leasing rules						VM Leasing				
	PCI passthrough, bare metal	Enables direct hardware assignment to VMs for workloads requiring GPUs or tape backups								Hardware Passthrough		
	Containers, LXC	Adds support for lightweight container orchestration using LXC within MultiPortal										Container Management (LXC)
Security & Authentication	2FA, MFA, Authenticator apps, TOTP	Adds Multi-Factor Authentication support via authenticator apps (TOTP), enhancing account security through a second verification layer during login. Complements existing LDAP/SAML auth to meet compliance and best practice standards.				2FA Authentication						
	LDAP, Active Directory, user auth	Allows MultiPortal users to authenticate using enterprise directory services like LDAP/AD				LDAP/LDAPS						
	SAML 2.0, SSO, Identity Federation	Adds Single Sign-On support through SAML to integrate with identity providers like Okta					SAML Support					
Branding & Reseller Enablement	White-labeling, multi-tenancy	Allows branded MultiPortal experiences per reseller, including logos and color schemes							Reseller Branding			
Platform Management	SSL, cert automation	Centralized SSL certificate issuance and management within MultiPortal										MultiPortal SSL management
